

# Assortment Catalog Report

August 27

# 2021

This report provides visibility to effective costs and retails for a store's active items as of the upcoming Sunday as well as costs & retails for those items effective as of the past Sunday.

Intended Users: Retail Partners

Report Number: PR0255

Location: Merchandising → Pricing → Assortment Catalog

## User Guide

## General

- The report is located on the Intranet & RP Connect under Merchandising/Pricing.
- 'New' refers to costs and retail prices that are effective as of the upcoming Sunday.
- The report only includes items that are in active or temporary status AND have at least one item on order or on hand.
- The report is best viewed when exported to Excel.
- Viewers will only see data for stores that are assigned to them.
- The report sorts in the following ascending order: Department/Class/Subclass/Item Number/UPC/Store.

## Prompts

The screenshot shows a web interface for generating a report. It includes a 'Zone/DC/StoreId: (Max 5 can be selected)' dropdown menu, a 'Sub Class:' dropdown menu, and a 'Class: 002-Fruits , 004-' dropdown menu. A 'View Report' button is visible on the right. A list of selected zones is shown below the first dropdown:

- ☐ (Select All)
- ☐ Zone:0 - DC:01:St. Louis - Store:20633 - Porkys Meat Shop, MO -Eur
- ☐ Zone:0 - DC:01:St. Louis - Store:21684 - M-J-Meats Inc, MO - Arnol
- ☐ Zone:2 - DC:01:St. Louis - Store:21344 - N.A. Buffen Company, Inc
- ☐ Zone:2 - DC:02:Humboldt - Store:21426 - Ollie's - Hum
- ☐ Zone:2 - DC:03:Fort Worth - Store:21354 - The Wholesale Group LLC -FTW
- ☐ Zone:2 - DC:03:Fort Worth - Store:21403 - Grocery Outlet - FTW

- **Zone/DC/Stores (limit 5):** Required drop-down multi-select of the user's Retail Pricing Zones/DC/Stores.
  - This prompt is limited to 5 selections to ensure optimal performance of the report due to large amounts of data. Defaults to blank.
- **Class:** Required drop-down multi-select of the report's items' classes. Defaults to 'all' selected.
- **Subclass:** Required drop-down multi-select of the selected classes' subclasses. Defaults to 'all' selected.
